Goodwill Industries of RI Adult Education Assessment & Referral Program

Assessments

- Goodwill uses a combination of comprehensive assessments that assist in identifying underlying barriers that may be impeding one's educational success; this process includes the PowerPath. Assessments.
- Unlike other assessments that focus on just what a person knows, PowerPath screens for key breakdowns in learning, attention challenges, hearing issues, visual function issues and organizational abilities.

For more information please contact Christine Yankee at (401)861-2080 x219 ~ cyankee@goodwillri.org or Ruth Jennings ~ x103 ~ rjennings@goodwillri.org

Suggestion for Accommodations

During the assessment process, if learning challenges are identified Goodwill will work with the student to:

- Identify strategies to assist them in understanding how they learn best,
- Select and apply adaptations and strategies,
- Teach the student how to manage time effectively,
- Assist the referring instructor in learning about the recommended accommodations .

Goodwill Industries of RI Data

Attention Challenges

None	15%
Mild	54%
Moderate	31%
Severe	0%

Visual Stress Syndrome

None	7%
Mild	18%
Moderate	39%
Severe	36%

**Data is based on 286 students

Referrals

- If it is identified that the student needs additional services outside the realm of Adult Education, Goodwill will provide the student with referral information (i.e. Mental Health Service, ORS, BHDDH...etc.).
